

What is "eumo" - community currency platform?

Newly defining community money as a tool for making everyone happy
Not saving, but circulating money to stimulate community activities
Fostering social interests based on sympathy

Social community network

- Visualize the connection between individuals and companies
- Not only payment, but also social network services to connect each other and foster social interests

Gift function

- Give tips with messages(like easy crowdfunding) to shops
- Basically, 10% of sales is set for gift (the rate is changeable)

Aging money

- Three months time period
- Expired money is distributed to users and community (like donation)

Community currency platform

- Set up new community currency easily using "eumo" platform
